PROFESSIONAL SUMMARY

Audio and visual professional with extensive experience providing high-end sound design, music scoring, film production, forensic and video services. Forensic engineer, expert witness when audio and video evidence is presented needing an objective interpretation. Industry leader passionate about sharing exemplary professional experiences and accomplishments with clients in order to foster first-hand educational development. Driven professional adept at branding and creating commercial and promotional materials at the corporate level for Fortune 500 companies. Multi-media including digital reproductions, professor with the demonstrated ability to combine real world applications with academic experience. Testified in multiple cases changing outcomes. Provided support for many other cases.

PROFESSIONAL EXPERIENCE & ACCOMPLISHMENTS

- 35 Years' experience analyzing photo graphic, audio and video evidence using court accepted scientific fact based forensics.
- Responsible for covert electronics, recovering computer and cell phone data, performing security installations, and acting as a liaison between fellow technicians, courts and attorneys in order to serve as an expert witness.
- Directed own recording studio, created print and television ads, scheduled facility bookings, managed operational budgets and purchases and performed overall production management and computer/electronic maintenance to component level.
- Provided expert services of recorded evidence for both plaintiff and defense used in all levels of court.
- Instated to create and teach 3 credit hour recording technique classes premiered at Oakland University and eventually Wayne State University as a result of completing a recording for an OU Show Group.
- Trained and certified an expert in voice identification and spectral interpretation.
- Designed and built studio facilities for private and corporate clients involving acoustics, lighting, audio and video equipment, budgeting, purchasing, installation and operational instructions.
- Designed built and manufactured electronic circuits for audio video equipment and covert applications. Amateur radio FCC license W8KNR Extra Class the highest level of radio communications
- Helped Indy film producers create a screenplay representation of their vision by providing training with equipment, directions for completeness of productions, and facilities to finish their project.
- Managed audio, video and film production services such as recording, mixing, CD and DVD mastering and audio video transfers as well as 5.1 DCP mixing for theaters.
- Recorded and produced jingles and show music for Fortune 500 companies such as Sears, Little Caesars Pizza, Tubby's Subs, Chrysler, GM, and Ford.
- Developed "Hollywood Explained" seminar demonstrating the trials and tribulations of recorded evidence that was taught and is available to law officials giving attendees (CEU) educational credits.
- Grand Master Karate 7th Dan in Tang Soo Do
